My Quran Crack + Free 2022 [New]

• Easy to set up and bearing a friendly user interface, this program was especially created in order to supply a well organized digital version of the most important text of Islam. The verses are neatly structured and from the 'Contents' section of the right-side panel of the main window you can select the excerpts you want to read. • With My Quran Crack Mac it is also possible to view the translation of the holy texts since the Arabic passages are accompanied by the rendition in English and Indonesian, the only languages made available by this program at this time. • For those who want to listed to the Quran, there is a dedicated audio player that is built-in the application and offers some basic controls. Thus, you can start or stop the reciting, adjust the level of the sound volume as well as move to the next or previous chapter. By activating a special option with a single click, you will be able to make the playback continuous. • Choosing the desired view for My Quran means opting for one of the available modes that are placed in the 'General' tab of the 'Settings' area. Moving on to the 'Translation' tab, you can pick the versions of the versets in the other languages that will be displayed in the main window. • As a whole, this software solution is a long way from being finished because it comes with many incomplete or unavailable functions throughout the GUI and preferences window. At this time, My Quran is only suitable for reading the holy texts and barely little more than that. In-App purchase: • The download links for all updates are included in the in-app purchase Matei Liviu - 15 November 2012 Great application While I am not able to use the ios version of this app, I would like to say that the android version of this app is really great. I found it so much easier to learn the actual meaning of the verses in this app, when compared to other translations. Wayne Jones - 11 November 2012 Great for learning more about Islam. I found the information in the Qur'an and the translations to be really helpful in my understanding of Islam. The graphics are very good. I would recommend this to anyone who wants to understand the meaning of the Qur'an. Mohammed Al-Ajmi - 26 October 2012 Great user-interface I liked the intuitive user-interface on My Quran very much. It
